the benefits
of biosolids
on your
farmland**

As an industry leader in:

- **Haulage**
- **Storage**
- **Spreading of biosolids**

ROHES Ltd. adds another special feature to its already recognized leading edge technology. The High Speed AerWay SSD Injection System.

At ROHES, our AerWay system is coupled with a bladder storage unit along with a drag-hose reel. This is ideal for larger sites, ensuring the biosolids application is completed in a timely manner, while minimizing soil compaction.
